

Your Man Mark

FRACTIONAL CREATIVE DIRECTION

THE NIMBLE BRAND GUIDE // GET YOUR BRAND IDENTITY SHIPPED

A brand that wins, built & shipped in four weeks.

THE 4-WEEK SPRINT

01

LISTEN & FRAME

We sync up based on the market and your tastes

Interviews with you and your stakeholders. Competitor, market, and trend research. A mood board your team votes on. It's **weighted by who's accountable**, so founder signal outweighs the copywriter on the education team. We lock three core values and a one-line "what you do."

02

REVIEW, DISCUSS, ALIGN

You get to see the process unfold and help guide it

Three genuinely different logo directions (plus the process sketches your team often falls for) and a live landing page so the brand shows up where customers will actually meet it.

03

NARROW & COLOR

Three firm directions, one decision

Revise to three firm logo directions and choose. Then three color palettes in a tight brand page: logo, color, values, social imagery, and a signature pattern.

04

FINALIZE & SHIP

No padding, no drag

One clean review. We finalize and you receive the landing page, full logo asset package, and a nimble brand guide your whole team can run with.

You don't have a quarter of a million to spend on a logo. But your site, pitch deck, and socials still look seed-stage and you can't afford to look it.

- Defined color system & signature graphic
